

Imagine if...

Your team is unequivocally the best.

How would you feel?

...and what would it cost you if it wasn't?

"Not finance. Not strategy. Not technology. It is teamwork that remains the ultimate competitive advantage, both because it is so powerful and so rare." Patrick Lencioni.

HOTteams can make your team the best. We offer opportunities to develop **skills** and behaviors that build **leadership, strategy, motivation, synergy, communication, risk management** and **decision making**.

What we do

Tired of team building?

HOTteams offers a fresh new approach to team development.

We provide a unique learning experience to encourage leadership, communication, synergy, teamwork, motivation, decision making and risk management.

We also offer keynote speaking, outdoor adventurers and activities.

We can come to your neighborhood or you can come to ours.

Check our products

Outdoor events - We provide a safe learning environment, that will draw on many years of experience gained in adventure and multisport training, where participants will be challenged, supported, nurtured, inspired and they will also have fun.

The outdoor options include any combinations of kayaking, running, mountain biking, rappelling, rafting, trekking, climbing, etc.

Keynote Speakers - Steve, Ian and Nora speak passionately on themes from their sporting experience in a format that allows parallels to be drawn to business. Team Adventure Racing in extenuating circumstances has given them interesting insights to share on team dynamics.

Is your team a champion team?

Experience our virtual adventure race!

Our adventures can be customised to match the goals of the conference and include indoor and outdoor options. The STAR Leaders (Simulated Team Adventure Race) Game, is our flagship product which is ideal when time is limited or you'd rather not get too sweaty and dirty.

WARNING! It is addictive and very competitive.

Steve Gurney's cut the nasties out of adventure racing and is getting down to business. With no leeches, mud, blood, puffing, sweat, sleep deprivation, your team can now enjoy a virtual adventure race for your conference or business and develop winning team strategies in:

*** Leadership * Communication * Risk Management * Decision Making ***

And it is FUN!
